

REMARKS

Claims 32-35 and 37-42 were presented for examination. The Examiner allowed claims 32-35 and 37-40; and rejected claims 41 and 42. Applicant hereby amends claim 41. Support for this amendment is contained in the application as originally filed. Reconsideration of this application as amended, and allowance of all claims herein, claims 32-35 and 37-42 as amended, are hereby respectfully requested.

The Examiner rejected claims 41 and 42 under 35 U.S.C. §101 for two reasons:

First, the Examiner stated that the steps of claim 1 “do not perform the requested action.” In response to this rejection, Applicant is hereby amending claim 41 to add the step of “receiving a request for an action to be performed on digital content.” It is now clear that the steps of claim 41 do in fact perform the requested action.

Second, the Examiner stated that claim 1 “recites a method step that needs no implementation on a computer.” In response to this rejection, Applicant is hereby inserting the words “computer-implemented” before the word “method” in the preamble to claim 41. Thus, it is now clear that the steps of claim 41 are to be implemented on a computer.

For the above reasons, the Examiner is requested to withdraw her rejection of claims 41 and 42; and to allow these claims as amended.

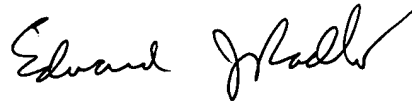

Applicant is hereby amending page 13 line 13 and page 14 line 9 of the specification to correct typographical errors.

Applicant believes that this application is condition for allowance of all claims herein, claims 32-35 and 37-42 as amended, and therefore an early Notice of Allowance is respectfully requested. If the Examiner disagrees or believes that, for any other reason, direct contact with

Applicant's attorney would help advance the prosecution of this case to finality, she is invited to telephone the undersigned at the number given below.
